

DutchSA Presents

Renewables networking drinks

Guest Speakers

**Rein van den Eijnde – race participant
World Solar Challenge**

Will discuss the preparations for and actual participation in the 2009 World Solar Challenge race

Wubbo Ockels – Physicist and astronaut

Will provide a global perspective on future renewable energy sources in development

**Frank Weits - PricewaterhouseCoopers
Master of Ceremonies**

An exclusive invitation to join us for an inspiring presentation by two renewable energy experts over drinks.

Hear first hand from one of the top World Solar Challenge contestants on their preparation for this world renowned race and how they fared on their 2009 trip between Darwin and Adelaide.

Joining the presentation is renowned Dutch physicist and astronaut Wubbo Ockels. As first Dutch citizen to space, Wubbo is currently a full-time professor at the Delft University of Technology and amongst many projects has overseen the Nuon Solar team over the last few years. He will share his insights into a variety of promising and challenging new energy resources aimed at developing sustainable energy for future generations to use.
